

[Tax Return Extension](#)

Tax Return Extension

Posted July 28, 2019

Please complete the following form to provide authorization for us to extend your business and individual tax returns. The first section is for extending your individual tax return, and there is a second section to extend your business tax returns as well (partnership and corporations). Yes, you can select "Both" at the end to extend both tax returns.

Be aware! An extension is an extension to file not to pay. Therefore, if you have a tax liability, it is still due on April 15 2019 for individuals and C corporations, and March 15 2019 for partnerships and S corporations. We can assist with estimated tax payments if necessary.

All extended business and individual tax returns **will be prepared in May or June** provided we have everything we need from you. Our turnaround time increases to 12-15 days during the off-season to accommodate for mental breaks and vacations.JTVCZXh0ZW5zaW9uLWZvc m0INUQ=
