What WCG Offers

Founded by Tina and Jason Watson in 2007, WCG is not just a group of tax preparers or number crunchers—we are tax consultants and business advisors, and our firm will take you through the cycles of your personal and business lives. Not every business runs the same or has the same needs. We want to ask the appropriate questions, listen, and develop a game plan that works for you.

Many accountants are only compliance oriented, and while IRS compliance is critical, being proactive is equally important. Tax planning is our middle name.

Unlike the modern-day new car packages, our Business Advisory Service plans can be customized specifically for you. The array above is simply a starting point. We are not salespeople; we are consultants. We are not putting lipstick on a pig expecting you to love it. Our job remains being professionally detached, giving you information and letting you decide.

Moreover, our goal at WCG is to always prepare comprehensive and accurate financial reports, filings and tax returns; however, equally important is your understanding of how this stuff “works”. To the extent necessary, we want you to be comfortable with your tax and accounting world so together we can successfully plan for your future. We get to peek in for a handful of hours; you live it every day!

Thank you in advance for the opportunity to serve you!
