

Here at WCG we are very grateful for all the trust, patience, and support clients have shown us during the blending of Summit Accounting Solutions and WCG as we continue to implement best practices.

We are nearing the end! Phew!

One of the remaining items is migrating Summit S.O.S. portals to a trusted client portal system called ShareFile. ShareFile is best in class for secure document exchange, and allows for better folder organization similar to Windows Explorer. Login credentials will be sent around December 3, so please be on the lookout. And! If you have any troubles we are a phone call away at 719-387-9800... Jill is amazingly helpful!

Next...

Starting January 1 (as in a month) **the crusty old Summit S.O.S. portals will no longer be accessible**. Oh no! Not to worry, we will always retain copies of all your portal documents forever... and maybe even forever and ever. But! Here is the important part, those documents will not be automatically loaded into your new ShareFile portal.

So if you want to grab these documents directly, we have created simple directions to download your files (you might already know how, but...)-

Again, there is no need for you download these files. We will retain them indefinitely. Once you're done with your riveting downloads, here is a wonderful recipe for Firecracker Salmon... over long-grain rice, yum-

If you have questions or troubles, or both, please call us, and we can walk you through the downloads... or the recipe. Either way, we got you!

Warm Regards,
